WILLIAM BULL, F.L.S.,

Respectfully calls the attention of the Nobility and Gentry about to furnish Conservatories to the

MAGNIFICENT SPECIMEN

Ornamental Plants

IN HIS WINTER GARDEN,

Some of which are the Most Handsome in Europe,

COMPRISING

PALMS, CYCADS, ENCEPHALARTOS, AND DRACÆNAS,

And a Large Stock of

TREE FERNS.

ORCHIDS.

In Mr. WILLIAM BULL'S Establishment will be found a large and fine stock of good established plants to select from. From the large number of plants in flower his Orchid Houses are always well worth a visit, and he will be pleased to show them to anyone interested in this beautiful class.

Mr. W. B. recommends those desirous of having their houses gay with Orchid flowers, to purchase good established well-cultivated plants, which bloom well, are more satisfactory, and comparatively cheaper than newly imported plants. He will be pleased to make selections suitable for cultivation either in a Cool, Intermediate, or Stove temperature as may be desired, at 3, 4, 5 and 6 guineas per dozen.

A Catalogue, containing a list of Orchids and their prices, sent post free on application.

MAY, 1901.

NEW PLANTS

OFFERED FOR THE FIRST TIME

BY

WILLIAM BULL, F.L.S., V.M.H.,

&c.

BILLBERGIA AMŒNA.

This handsome and free-flowering species has pale green channelled leaves, minutely spined on the margins. The inflorescence is extremely showy; the peduncle, which is semi-erect and about as long as the leaves, is clothed for the greater part of its length with brilliant vermilion-scarlet bracts, and terminated by a loose spike of about seven green flowers with recurved petals and protruding orange anthers, in striking contrast to the deep bluish-purple tips of the calyx. It is a native of Brazil. 10*s.* 6*d.*

BILLBERGIA NOBILIS.

A magnificent species with semi-erect broad serrated leaves marked transversely with a grey pulverescence. The handsome inflorescence is produced on a long drooping spike, furnished on the central portion with large lanceolate, spreading bracts of the most ornamental character, the colour being a brilliant cerise carmine. The flowers are green, the petals rolling back and exposing the greyish-blue anthers. This handsome species is without doubt one of the most beautiful and striking of Bromeliads, and was awarded a First Class Certificate by the Floral Committee of the R. H. Society. 2 guineas.

BOUGAINVILLEA FORMOSA.

An exceedingly showy and handsome flowering variety introduced from Brazil. Owing to its free growth and abundant flowering qualities under comparatively cool treatment, this plant is admirably adapted for the decoration of warm greenhouses and conservatories. It is of semi-scandent habit, and bears its richly coloured bright purplish mauve bracts in wonderful profusion. 7*s.* 6*d.*

CESTRUM SMITHII.

A most charming variety raised from *C. elegans*, bearing in terminal trusses beautiful blush-rose flowers, produced all through the summer and autumn in the most profuse manner. It will be found a most desirable addition to warm greenhouses and conservatories, and is especially useful for cutting, the flowers lasting a considerable time in good condition. 5*s.*

EUGENIA MYRIOPHYLLA.

This pretty and compact growing plant has been imported from Brazil, and is of extremely neat habit. The leaves are linear, opposite and almost sessile, dark green, the young growths of a pale yellowish green minutely spotted with chocolate red. The flowers are white. 7*s.* 6*d.*

GMELINA HYSTRIX.

A semi-climbing plant from the East Indies, with the habit of a Bougainvillea, and therefore most suitable for covering the roofs and pillars of stoves. The flowers are of a very decorative character, most freely borne in dense terminal drooping spikes formed of acuminate bracts, beautifully veined with purplish red. The corolla is nearly 3 inches long and golden yellow. *5s.*

PLEROMA CANDIDA.

This pretty free flowering Melastomaceous plant has been introduced from South Australia. It is of shrubby habit, well furnished with dark green ovate-lanceolate leaves, densely covered with soft silky hair, the five longitudinal veins very prominent on the under side. The flowers, which are borne in loose terminal heads, are individually about $1\frac{1}{2}$ to $1\frac{3}{4}$ inch in diameter, the petals being of snowy whiteness. This will be found a desirable flowering plant for the warm conservatory or stove. *5s.*

NEW WINTER-FLOWERING BEGONIAS.

BEGONIA, "CALEDONIA."

(The White "Gloire de Lorraine.")

An introduction which promises to become as popular as the well-known "*Gloire de Lorraine.*" Alike in habit of growth and foliage, it only differs from that variety in having flowers of snowy whiteness, borne, like the typical variety, in the most abundant profusion. *10s. 6d.*

BEGONIA, CORAIL.

A bright coral scarlet flowered variety of robust growth, raised from *B. semperflorens* crossed with *B. fuchsioides miniata*, and is a welcome addition to winter-flowering plants. *3s. 6d.*

BEGONIA, FULGURANT.

This is of the same parentage as the preceding, but the flowers are of much brighter hue and borne in rigid panicles, in a most profuse manner. It is admirably adapted for massing and for the decoration of warm greenhouses through the winter. *3s. 6d.*

NEW FUCHSIAS (1901).

The following beautiful kinds are now being sent out for the first time. They are all very desirable, and of unusual excellence.

The varieties marked * have double flowers.

***BRITON**, fine large semi-double reddish purple corolla; long and broad sepals nicely recurved, of a reddish scarlet colour. *5s.*

BRUTUS, a very elegant variety, with short tube and long, narrow, elegantly reflexed, bright crimson scarlet sepals; single corolla of good shape, bright purplish crimson. *5s.*

***BUDGET**, large and broad sepals completely recurved over very short tube; large expanding semi-double corolla of a rich purple colour. *5s.*

NEW FUCHSIAS (1901)—*continued.*

*CAMEO, very broad crimson sepals well recurved; long semi-double lavender purple corolla. 5*s.*

*CASILDA, rich rosy carmine sepals, broad and completely reflexed; very large and full double white corolla of excellent shape, the exterior petals suffused to about half their extent from the central vein, with the same bright colour as the sepals. 5*s.*

ELSA, short whitish tube with long and very broad rose-pink sepals, the base nearly white; shortish single corolla, rosy purple. 5*s.*

EURYDICE, whitish tube and sepals, the latter long and broad, suffused with rose pink; long purplish-rose single corolla. 5*s.*

*GRAPHIC, short and broad crimson tube and sepals, the latter well extended; very large loose double corolla, lavender blue, shaded red at base. 5*s.*

HAIDEE, crimson carmine tube and sepals, the latter very broad and recurved; whitish bell-shaped corolla suffused with pink and veined with carmine. 5*s.*

LYRA, very large and broad crimson sepals elegantly reflexed, short tube; large single corolla, purple mauve. 5*s.*

*MEDORA, bright carmine sepals completely reflexed; large double white corolla veined carmine. 5*s.*

PRINCE OF ORANGE, short and broad tube and sepals, orange pink tipped greenish yellow; single corolla, very rich dark orange shaded with vermilion. 5*s.*

NEW FUCHSIAS

Recently introduced by Mr. WILLIAM BULL.

The varieties marked * have double flowers.

*ACHILLES, a grand variety with short tube and broad dark red shell-shaped sepals; corolla rich plum colour, very full and double, the petals much waved. 1*s.* 6*d.*

AGRA, deep coral-pink tube and sepals, the latter completely recurving; very long corolla, pale pink, veined with magenta rose. 3*s.* 6*d.*

*ALTAIR, short tube and sepals of a bright coral-red colour; very large double bluish violet corolla, very shallow and much expanded. 3*s.* 6*d.*

ASPASIA, light red sepals completely reflexed over the short tube; bell-shaped single corolla, blush shaded with violet. 3*s.* 6*d.*

BALTIC, short bright crimson tube and sepals, the latter well reflexed; rich purple single corolla, veined at base with crimson. 1*s.*

BETA, bright crimson tube and sepals, the latter completely recurved; rich plum-coloured single corolla. A pretty flower of good shape. 2*s.* 6*d.*

*BRENDA, rosy red tube and sepals; large spreading bluish-plum double corolla. 2*s.* 6*d.*

BRILLIANT, a fine bright variety with recurved carmine-red sepals; corolla reddish purple. 2*s.* 6*d.*

*CALLIOPE, large double flower; corolla rich violet-purple, short tube and broad crimson sepals. 1*s.*

*CAMBODA, red tube and sepals, the latter completely reflexed; long double white corolla. Very suitable for growing against a pillar. 3*s.* 6*d.*

NEW FUCHSIAS—*continued.*

CASINO, very short tube and broad crimson sepals; single corolla, the petals spreading and of a rich purple colour. 1*s.*

CECIL, short tube and broad coral-red sepals, large spreading purplish-red single corolla of good shape. 1*s.* 6*d.*

CHAUCER, short tube with broad red sepals completely recurved; large single lavender purple corolla, veined and shaded crimson at base. 3*s.* 6*d.*

***CLAUDIA**, very broad bright red sepals completely reflexed over very short tube; enormous blush pink corolla, very full and double. 3*s.* 6*d.*

DACIA, short and broad crimson tube and sepals; pretty purple corolla, veined crimson, single or semi-double. 2*s.* 6*d.*

DIANA, pink tube and sepals, the latter long and horizontally extended; single plum-coloured corolla marked rose-pink at base. Of distinct colour and shape. 2*s.* 6*d.*

***DORIS**, short tube and large broad coral-red sepals horizontally extended; immense double corolla, petals reddish purple, margins shaded with metallic blue. 1*s.*

***ELAINE**, crimson sepals and short tube; large double white corolla, veined at base with bright rose. 2*s.* 6*d.*

ELEGANCE, white tube and sepals, the latter broad and elegantly recurved, single corolla blush pink, each petal margined bright pink. 1*s.* 6*d.*

***ERMAN**, short scarlet tube and well-reflexed sepals; irregular double corolla, violet purple shaded red. 2*s.* 6*d.*

EUGENIA, bright red reflexed sepals; large single—sometimes semi-double—white corolla, veined carmine. 3*s.* 6*d.*

FALCON, short crimson tube and sepals, buds globular; single corolla bluish purple shading. 3*s.* 6*d.*

FASCINATION, a most charming variety with long white tube and sepals, which are broad and prettily recurved; single corolla of a lovely shade of rose pink. 1*s.* 6*d.*

***FREEDOM**, long and broad reddish crimson sepals, completely reflexed; semi-double, much expanded white corolla, veined with crimson. 2*s.* 6*d.*

GERARD, crimson tube and sepals; large bluish purple single corolla, marked with deep rose at base. 2*s.* 6*d.*

***GIDOUR**, short tube and very broad recurved crimson sepals; very large rich plum purple double corolla. 2*s.* 6*d.*

HALLOWEEN, immense crimson sepals very broad and long, beautifully recurved over short tube; single slatey-blue corolla, veined crimson at base. Good variety for pillars. 3*s.* 6*d.*

***HECLA**, bright rosy red sepals, well reflexed over short tube; large double white corolla, suffused at base with magenta rose. 3*s.* 6*d.*

HECTOR, dark crimson-red tube and sepals, the latter broad and well reflexed; crimson purple corolla, the base of petals lit up with bright crimson. 1*s.* 6*d.*

ICARUS, carmine sepals completely recurved; blush white single corolla veined with rosy crimson, base of the petals suffused carmine. 2*s.* 6*d.*

IDRA, salmon-red tube and sepals well extended; single lilac purple corolla. 2*s.* 6*d.*

IRENE, short red tube and sepals, well reflexed; single reddish violet corolla marked with crimson at base and well extended. 1*s.*

NEW FUCHSIAS—*continued.*

*JANUS, carmine tube and sepals, very large double white corolla veined with rose at the base of the petals. 2*s.* 6*d.*

LEDA, short tube and very broad reddish crimson sepals, irregularly reflexed: corolla bluish violet veined with crimson and much expanded. 1*s.*

LINDA, large single corolla of good shape, lavender blue veined at base with crimson, broad sepals and short coral-red tube. 2*s.* 6*d.*

*LOTHAIR, short carmine-red tube and completely recurved sepals; large lavender purple double corolla, shaded rose at base. 2*s.* 6*d.*

LOUISE, bright reddish scarlet tube and completely reflexed sepals; single white corolla, veined deep rose. 2*s.* 6*d.*

LUCIUS, very large and broad bright crimson sepals, completely reflexed, tube short; large white corolla, veined with rose at the base. 1*s.*

*LYSIAS, bright red tube and broad shell-shaped sepals extending over a very large well-expanded double rosy purple corolla. 3*s.* 6*d.*

MAGNATE, a very fine flower of good contour; long and broad red sepals; single bell-shaped corolla, rich purple, marked with rosy crimson at the base. 3*s.* 6*d.*

*MANFRED, very broad and long bright red sepals, well reflexed; irregular double corolla, rich purple splashed and flaked with rosy red at base. 3*s.* 6*d.*

*MENTO, a gigantic double flower with broad shell-shaped sepals of a reddish crimson colour, immense bluish purple corolla. 2*s.* 6*d.*

*PALATINE, long and broad completely recurved crimson red sepals; corolla semi-double, very large and of fine shape, of a rich ruby purple colour. 3*s.* 6*d.*

PENDANT, a very remarkable variety of strikingly weeping or pendant growth, admirably fitting it for growing in baskets, &c. The flowers, which are abundantly produced in clusters, have short tubes with long and broad extended carmine-pink sepals; corolla, single or semi-double, rich plum colour, shaded with deep rose at the base. 1*s.*

*REGENT, bright red shell-shaped sepals, partially reflexed; semi-double irregular corolla, lavender purple shaded with rose. 2*s.* 6*d.*

ROMEO, crimson tube and sepals, elegantly recurved; very symmetrical rich purple plum-coloured single corolla, marked rose at base. 2*s.* 6*d.*

*ROSALIE, short bright crimson tube and sepals, horizontally extended; large double white corolla, veined at the base with cerise-pink. 1*s.*

RUPERT, short tube completely hid by the broad recurved cerise-red sepals; single corolla, very large and spreading of a rich bright purple, veined and suffused with crimson at the base. 1*s.* 6*d.*

SABINE, white tube and sepals, rather long and broad and well extended; single corolla, magenta carmine. 3*s.* 6*d.*

TRIBUTE, very short tube and completely reflexed bright reddish crimson sepals; violet-purple single corolla, veined and shaded at base with crimson-red. 1*s.*

VESTAL, long white tube and recurved sepals; bright rosy carmine single corolla. 3*s.* 6*d.*

VALIANT, coral-red tube and sepals, the latter broad and well reflexed; single corolla with large bright crimson-red petals. Very striking. 2*s.* 6*d.*

NEW ZONAL PELARGONIUMS.

SINGLE-FLOWERED.

Offered for the first time by Mr. William Bull.

OVID, rich orange scarlet, an extremely bright colour; flowers of good substance and shape. 5*s*.

RHODA, bright carmine centre, fading to pink on the margins. 5*s*.

ROMEO, trusses of French white flowers, ornamented with an aureole of salmon pink. 5*s*.

SCIPIO, bright cherry carmine, basal half of upper petals white, the dividing portion shaded with magenta. 5*s*.

TAMAR, very rich crimson scarlet, the lower half of upper petals magenta rose. 5*s*.

THALIA, fiery orange scarlet flowers, the two upper petals blotched with white. 5*s*.

ZONAL PELARGONIUMS.

OTHER NEW SINGLE-FLOWERED VARIETIES.

ADRIENNE CAMBRY, enormous trusses; flowers pale rose marmorated and edged with carmine; white centre. 3*s*. 6*d*.

ATLAS, very large flowers of the richest scarlet; extra fine. 3*s*. 6*d*.

AUGUSTE DORCHAIN, bright violet rose, slightly spotted with white; large truss. 3*s*. 6*d*.

BELLONE, rich cerise pink, the basal half of the two upper petals pure white. 3*s*. 6*d*.

BEROSE, deep rosy pink flowers, fine truss. 2*s*. 6*d*.

CHARLES MALO, globular trusses of round reddish scarlet flowers. Plant of good habit. 3*s*. 6*d*.

CHARLES RECOLIN, gigantic trusses of orange scarlet colour, each petal prettily serrated. 3*s*. 6*d*.

CLOVIS, large trusses of rich carmine flowers slighted shaded with magenta, the three lower petals marked at the apex with rose, upper petals shaded light rose. 3*s*. 6*d*.

CONDOR, pink shading to white on margin. 2*s*. 6*d*.

CRUSADER, rich fiery scarlet, upper petals shaded orange at base. 2*s*. 6*d*.

DELPHIAN, good trusses of bright scarlet flowers. 2*s*. 6*d*.

DEVICE, fine trusses of orange-scarlet flowers, suffused with a yellowish shade. 3*s*. 6*d*.

DUCHESS, magenta rose shaded violet, upper petals feathered with white. 2*s*. 6*d*.

EDMOND HARAUCOURT, fine trusses of large clear apricot flowers. 3*s*. 6*d*.

ELAINE, fine large truss of soft cerise flowers. 2*s*. 6*d*.

ELBA, salmon-cerise shaded scarlet, a fine round flower. 2*s*. 6*d*.

ELSA, large truss of light flowers, centres rich carmine crimson, petals veined and shaded with carmine on white ground. 3*s*. 6*d*.

FANE, rich violet, upper petals marked with orange-scarlet. 2*s*. 6*d*.

FLORA, orange salmon centre shading off to the margins, very bright and pretty. 3*s*. 6*d*.

GEORGES D'ESPARBES, large trusses of round flowers, salmon variegated with white. 3*s*. 6*d*.

GERARD, deep carmine pink, centre suffused with purple. 3*s*. 6*d*.

GOTHA, bright orange salmon, marbled with white. 2*s*. 6*d*.

HENRY GAUTHIER-VILLARS, rose-coloured flowers, punctulated with carmine. 3*s*. 6*d*.

HENRY HOUSSAYE, enormous globular trusses of irregular flowers, rose strikingly shaded with mauve; new colour. 3*s*. 6*d*.

SINGLE-FLOWERED ZONAL PELARGONIUMS—*continued.*

HERMIT, fine trusses of bright cerise pink flowers. 2*s.* 6*d.*

HERMON, rich ruby crimson, lower petals shaded with purple at base, upper petals rich scarlet at base; a very fine variety. 3*s.* 6*d.*

ICARUS, salmon scarlet centre, shading off nearly to white at the margins. 3*s.* 6*d.*

IRMA, shaded bright pink on a white ground. 2*s.* 6*d.*

JEAN BERTHEROY, large trusses of light salmon flowers, a little reticulated; white eye. 3*s.* 6*d.*

JEAN LAHOR, fiery salmon flowers; dwarf habit. 3*s.* 6*d.*

JOVIAL, white, heavily suffused with pink. 2*s.* 6*d.*

JULIUS, magenta purple, two upper petals fiery scarlet at base, all the petals tipped with scarlet. 3*s.* 6*d.*

JUMNA, splendid trusses, magenta cerise, upper petals marked scarlet. 2*s.* 6*d.*

LANCER, scarlet magenta, upper petals rich orange vermilion at base. 2*s.* 6*d.*

LAURENCE, magenta purple, edged and marked with vermilion. 3*s.* 6*d.*

LEDA, white ground, shaded salmon scarlet, deeper in centre. 3*s.* 6*d.*

LESBIA, large trusses of white flowers. 2*s.* 6*d.*

MABEL, white flushed with rose on the basal half of petals. 2*s.* 6*d.*

MADAME BENTZON, enormous trusses, flowers large, rose mauve, maculated with white. 3*s.* 6*d.*

MADAME EDGAR QUINET, very large trusses of pure white flowers, perfectly globular. 3*s.* 6*d.*

MAGNET, large truss of well-formed deep rose flowers, shaded with salmon. 3*s.* 6*d.*

MARK TWAIN, very large solferino-crimson flowers, shaded with orange; dark nervations. 1*s.*

MEDORA, upper petals orange scarlet, lower petals rich scarlet flushed in centre with magenta. 2*s.* 6*d.*

NIMROD, upper petals fiery orange scarlet, a faint tint of purple in centres; lower petals purplish magenta, shaded scarlet on margins. 2*s.* 6*d.*

ORION, carmine magenta, the base and tips of the two upper petals marked fiery orange. 2*s.* 6*d.*

RONURA, grand trusses of large well-formed cerise-pink flowers. 2*s.* 6*d.*

SARNIA, bright purplish magenta, marked with bright scarlet. 2*s.* 6*d.*

THERA, soft magenta scarlet, shaded fiery scarlet in centre. 2*s.* 6*d.*

VICTOR DE LAPRADE, fine marmorated flowers of good shape, salmon centre, rose border. 3*s.* 6*d.*

NEW ZONAL PELARGONIUMS.

DOUBLE-FLOWERED.

AGRIPPA D'AUBIGNÉ, dark crimson flowers; leaves darkly zoned. 3*s.* 6*d.*

ANDRE ANTOINE, enormous trusses of large pure rose flowers, centre white. 3*s.* 6*d.*

AUGUSTE MOIREAU, magnificently coloured flowers of large size, aurora orange, lighter on the margins. 3*s.* 6*d.*

CAROLUS DURAN, very large semi-double frilled flowers, bright salmon, suffused with golden orange. 2*s.* 6*d.*

CARPEAUX, flowers very large, round and double, soft rose, edged with carmine. 2*s.* 6*d.*

CHAMP DE NEIGE, very florifcrous and dwarf, producing a profusion of large trusses of pure white double flowers. 2*s.* 6*d.*

DOUBLE-FLOWERED ZONAL PELARGONIUMS—*continued.*

DAVID D'ANGERS, trusses of bright rose flowers, edged with carmine; semi-double and very floriferous. 2*s.* 6*d.*

EUGÈNE DELACROIX, immense trusses of enormous double flowers, of the most brilliant shade of scarlet. 2*s.* 6*d.*

FIANCÉE, large erect trusses of enormous semi-double flowers, white reflected with sulphur. 2*s.* 6*d.*

GABRIEL MONOD, large bright purple crimson flowers, good trusses. 3*s.* 6*d.*

GÉRARD DE NERVAL, large trusses of enormous semi-double flowers, fiery salmon, centre golden orange. 3*s.* 6*d.*

GUSTAVE LANSON, large globular trusses borne on long stalks; flowers salmon red, brightest in the centre. 3*s.* 6*d.*

GUY DE MAUPASSANT, stout trusses of orange-scarlet flowers, marked with white in the upper petals. 3*s.* 6*d.*

HENRI BECQUE, large trusses, cerise violet marbled with violet. 3*s.* 6*d.*

MADELEINE LEMAIRE, large flowers of a soft golden orange colour; a new shade. 3*s.* 6*d.*

MAURICE MONTÈGUT, enormous trusses of large semi-double scarlet flowers. 3*s.* 6*d.*

OCTAVE GRÉARD, very large trusses of amaranth crimson flowers, shaded carmine. 3*s.* 6*d.*

OLIVE SCHREINER, large flowers with white centre, bordered rose heavily shaded carmine. 3*s.* 6*d.*

PUVIS DE CHAVANNES, grand trusses of very large double flowers of good shape and of a very intense scarlet. 2*s.* 6*d.*

ROTY, trusses of medium size; large semi-double flowers of a beautiful China Rose colour. 2*s.* 6*d.*

RENÉ BAZIN, semi-double flowers of a bright fiery salmon colour. 3*s.* 6*d.*

NEW IVY-LEAF PELARGONIUMS.

SINGLE-FLOWERED.

LUCIA, magenta rose; whitish flake on upper petals surrounded with pale crimson. 3*s.* 6*d.*

LUSTROUS, a very fine variety with rich magenta carmine flowers, the two upper petals ornamented with purplish rose bars, surrounded and feathered with crimson maroon. 5*s.*

MEDEA, deep carmine shaded magenta, upper petals marked with orange and veined crimson, good round flower. 3*s.* 6*d.*

RADIANT, rich scarlet carmine, upper petals marked with rose and spotted violet crimson. 5*s.*

RIALTO, soft cerise, the upper petals having a white bar surrounded with crimson. 3*s.* 6*d.*

SALMO, carmine rose slightly shaded with violet, pale rose blotch on upper petals surrounded with crimson. 3*s.* 6*d.*

IVY-LEAF PELARGONIUMS.

DOUBLE-FLOWERED.

COLONEL BADEN-POWELL, splendid trusses of semi-double blush flowers of perfect shape and large size, the centre suffused with magenta rose. 1*s.* 6*d.*

SABRINA, semi-double, bright scarlet cerise flowers. 3*s.* 6*d.*

MR. WILLIAM BULL'S BULB CATALOGUE,

Published in September, contains Priced Lists of all the finest Dutch and other Flower Roots, selected from the Stocks of the best Continental Bulb Growers, including Hyacinths, Tulips, Crocus, Narcissi, Liliums, &c., with a choice selection of other Bulbous and Tuberous-rooted Plants.

FOREIGN ORDERS.

Plants, Seeds, &c., for transmission abroad, selected and packed with the greatest possible care in Bull's Patent Plant Cases or closed boxes, according to the nature of the goods, and despatched by the best Routes, Mail and other fast Steamers, to any part of the world.

Owing to the great difficulty of collecting accounts abroad, Mr. W. B. respectfully intimates that

A REMITTANCE MUST ACCOMPANY ALL FOREIGN ORDERS,

sufficient in amount to cover cost of order and of packing, or an order must be sent for payment in London.

EXPORTING.

Mr. W. B. is continually receiving the most gratifying accounts of the excellent condition in which both the Plant and Seed orders entrusted to him reach their destinations, and the satisfaction given by the selections made.

Post-Office Orders to be made payable at 510, KING'S ROAD, CHELSEA, S.W.

Cheques to be crossed "LONDON JOINT STOCK BANK."

Printers: SIR JOSEPH CAUSTON & SONS, Limited, London.
